

MEMBERSHIP APPLICATION PROCEDURES

All completed applications for regular or associate membership will be posted on naaa.com in sufficient time for NAAA Members and NAAA Chapters to have 30 days to comment to the NAAA Board on any application prior to approval by the NAAA Board. Comments shall be submitted in writing to NAAA's Membership Coordinator. Comments shall be submitted no later than 10 days prior to the next scheduled meeting of the NAAA Membership Committee.

All comments on any application shall be provided to the NAAA Membership Committee as part of its consideration of membership applications and its recommendation to the NAAA Board whether an application should be approved, denied or tabled for further consideration.

If it is the recommendation of the NAAA Membership Committee to deny an application, the Membership Committee shall state with particularity the reasons for the recommended denial.

If it is the recommendation of the NAAA Membership Committee to the NAAA Board that an application be tabled for further investigation, the NAAA Membership Committee shall state with particularity its reasons for recommending tabling of a membership application, and what conditions the applicant must satisfy to change the recommendation from tabling to acceptance.

After receiving the recommendation of the NAAA Membership Committee on a particular application, the NAAA Board or NAAA Executive Committee shall act on each recommendation. If an applicant whose application has been tabled satisfies the conditions set forth by the NAAA Membership Committee, the NAAA Board may admit the applicant to NAAA membership without further consideration by the NAAA Membership Committee.
